FOR IMMEDIATE RELEASE

Saisystems International Honored as a Best Place to Work

SHELTON, CT—(February 28, 2018) Saisystems International has been named the 7th Best Place to Work in Connecticut by the Best Companies Group and Hartford Business Journal.

The honor comes on the heels of Saisystems International's 30th business anniversary at its headquarters in Shelton, Connecticut. Since 1987, the technology and health company has served a diverse global audience while working to improve the local community.

"This is the first year we have applied to the Best Places to Work program and we could not be happier with the results," said Dr. Wadhvani, Saisystems International CEO. "We strive to make our company a positive, opportunity-rich workplace for every employee so it is humbling to be officially recognized for these efforts."

Team members received the thrilling news at an awards ceremony on Thursday, February 22. Dr. Ramesh Wadhvani could not contain his pride when he learned of the accomplishment, sending a company-wide statement:

"This is your award, your recognition for creating such a healthy working environment driven by your commitment to live by our core values," he wrote. "This honor is truly based on our employees, as their company feedback influenced 75% of our score."

Designed in 2005, the award serves to identify and honor the best employers in Connecticut based on their contributions to the state's economy, workforce, and business environment. Companies from across Connecticut applied for the two-part survey process, the first of which included submission of policies, philosophy, systems, and demographics. The second part of the survey measured employee experience, with the combined scores determining the top companies and final rankings.

This year's list includes 45 companies split into two categories based on size. Saisystems International ranked seventh in the small to medium category. The company will appear in the official Journal issue scheduled for release in March.

Saisystems International looks forward to returning to the competition in 2019.
