Bundle RCM with PacEHR™

Electronic Health Record

Achieve Seamless Integration with the RCM/PacEHR™ Electronic Health Record Bundle

Nothing benefits an organization quite like the unification of all its data and platforms.

This is why Saisystems has developed an all-in-one bundle consisting of our RCM service and our PacEHR™ electronic health record. With this bundle, you can elevate your practice by keeping all your systems under one roof.

PacEHR™ Electronic Health Record

Our PacEHR™ electronic health record system holds a handful of features specifically designed to benefit and streamline the PALTC practice's workflow.

PacEHR™ electronic health record can lend a helping hand with some of the following:

- **Rapidly integrate with effective software systems and facilities.**
- **Slash the time you spend on documentation nearly in half.**

Revenue Cycle Mangement

Even though it's one of the most important aspects of any organization, billing is also one of the biggest headaches.

Our RCM platform can assist in some of the following:

- **Reduce administrative issues with industry expertise in billing, coding, and much more.**
- **Eradicate payment interruptions while reinforcing your revenue using data insights.**

Make it the Best of Both Worlds with Advanced Electronic Records and Optimized Billing Schedules

With our RCM/PacEHR™ electronic health record bundle, integrating your practice's systems and platforms has never been easier.

Whether it's eliminating payment interruptions or streamlining electronic health records, this bundle is a perfect one-two punch that can benefit your practice with attributes like:

- **Business intelligence software, navigatEHR included, resulting in greater insight and in-depth analytics**

- **Seamless data integration that links the encounters you enter in PacEHR™ electronic health record to your RCM**

- **One vendor, one point of contact**

- **No monthly fee for connecting with your practice management systems**

- **Works seamlessly with your practice management system**

With the RCM/PacEHR™ electronic health record bundle, your organization can avoid the typical pitfalls of billing scheduling and record management.
