Improve Collections Ensure Compliance

with Streamlined Credentialing

Are you tying up precious practice resources with time consuming credentialing? The Quality Roadmap 2018 survey conducted by AAAHC found credentialing to be one of the top common deficiencies among surveyed organizations, including primary care.[1]

Saisystems Health Credentialing helps you:

Save Time
Reduce the administrative workload
Focus on high value situations.

Ensure Timely Completion
Enrollment and renewals are managed and tracked deadlines are met

Save Money
Pay just for what you need
Custom service includes hourly rate.

Improve Collections
Eliminate payment interruption
Credentialing delays are reduced
Electronic funds transfers promote regular payments

Take the opportunity to provide more attention to patients while improving your credentialing process.

Let the skilled credentialing professionals of Saisystems Health manage:

- Creation and management of CAQH profiles
- Enrollment and revalidation with Medicare via the PECOS system
- Enrollment and revalidation with commercial payers
