

At Point of Care or Anywhere

Charge Capture using billEHR is the simplest way to increase efficiency at the point of care so that practitioners can spend more time interacting with their patients.

"... what I liked most about billEHR was how integrated the solution was."

– Physician/Owner

New York Post-Acute Practice

- Searchable patient list
- Advanced code search
- Compatible with iOS and Android
- Web-view available for office administrators
- MIPS capture
- Automatically identifies capture errors
- User friendly interface

billEHR significantly reduces capture errors, shortens reimbursement cycle, improves point of care efficiency and enhances patient experience.
